The month compares very fairly with last ; and the year before, the imports being about se, while the exports show a large incres both in produce and specie. The imports are beaviest we have had since July last; the exp of specie the heaviest since last November exports of produce fall short of those of Febru and October last, but are in excess of those of other months of the fiscal year.

The following are the comparative tables of trade of the port for the nine months which he

Money is more about de	nt then over	There were

Money is more abundant than ever. Pive per cent is the standard vate for call loans, and six the exception. Debt of:rtificates advanced 1/4 per cent Gold was not so mercurial as yesterday, but still

the fluctuations were sharp. It opened at 148%, sell to 146%, rallied to 147%, fell to 146, rallied to 147, sold late in the day at 147, 148, 148% and 147% and closed at 5 P. M. at about 147%. The Sold bill passed the Senate to-day, as was excted, and now goes to the House on the amendnace of the measure. Mr. Dean's bill, as it mitted loans of par on gold. The bill which passed the Senate prohibits all loans what-over on gold or exchange. It is doubtful whether so sweeping a measure as this would do any good, and it is certain that it would do incalculable mischief among importers. All the protection which the national currency can fairly claim is granted by Mr. Dean's original bill, spled with the act of Congress. These measures ider it impossible for small speculators to deeciate the national currency by buying and arding gold on speculation. Under these mea-res to buy \$10,000 of gold a man must invest 14,700 of his own money, besides borrowing 110,000 at bank. Surely this is protection enough. If, under these circumstances, the currency de-preciates, it will be idle to impute the fact to Wall et speculation. The Senate amendments are stile to the spirit of our commercial legislaon, and so clearly calculated to drive business om New York to Boston and Philadelphia, that should be very little question of their rejecion by the House. Exchange was very dull to-day.

nents were rather lower. Quicksilver rose 1 per ent, then fell off 11/4; Pacific fell 21/4, and Central American Transit rose 8; New York Central fell 1/2, Eric 1/4, preferred 1/4, Hudson 1/4, Harlem 3, Harlem preferred 1, guaranteed 1/4. At the close There was an active inquiry for Southern old, Erie and Pittsburg, at an advance of 1/2 a 3/4 above the price on the call. At the 1 P. M. call this advance was sustained, and the general market was firm In the afternoon there was a general inquiry for New York Central, Erie, Southern old and Pitts-burg, and these stocks were higher and buoyant. on and Harlem were tame, and the latter was 13% per cent lower. The amount of business done was very large. At the 4 P. M. call the firmness continued, and there was a sharp rally in Pacific and Harlem. The following were the closing

part of certain government officials in reference to the publication of the amount of legal tender notes affoat. Yet these persons must be aware that this is information of the highest value, and that a monopoly of it would enable a shrewd epeculator to make a certain fortune. A sound discretion would dictate to the Treasury Department the propriety of publishing, say once a month, an official statement of the amount of motes and debt certificates affoat and bonds negotiated. This would convey invaluable informa-tion to the public, and would silence the wretched goseip that is affoat about speculators in or conected with the department.

The Sub-Treasurer received to-day \$805,000 for conversion into 5.20 bonds, and nearly \$400,000 on deposit at 5 per cent. The business of the office
